ZARQA UNIVERSITY

Zarqa University (ZU) was established in 1994. The aims of the university harmonize with the objectives and the strategies of public and private Jordanian universities. Moreover, ZU aspires to support the fulfillment of the main goals of Jordanian higher education system. In addition, ZU aims to provide the essential needs of Jordanian community with the request of high qualification in the fields of science, social, economic, cultural and human resources. The initial accomplishments of the ZU were based on 6 faculties, and total number of 150 students enrolled with 20 major specialization fields. In the recent academic year (2018/2019) the number of regular registered students became 8000 students enrolled with 14 faculties. According to ZU thoughts in scientific and practical humanitarian missions.. it looks forward to achieve energetic and indefatigable leaderships by providing the community with advanced academic majors that matches with the fundamental demands which guides to prosperity of the institution targets. Further, ZU strives hard to facilitate all the possibilities to attract significant number of foreign students from numerous countries.
